The screenshot shows the Taylor & Francis Online search interface. At the top, there is a search bar with the word "Communication" entered. Below the search bar, the results are displayed under the heading "Your search for All: communication" with "1-10 of 1,118,113 results". On the left side, there is a "Filters" menu with sections for "Access Type", "Subject", "Published in", and "Publication date". The "Access Type" section has two options: "Only show content I have full access to" (unchecked) and "Only show Open Access" (checked). The main search results area shows three articles. The first article, "Communicating resilience: predictors and outcomes of dyadic communication resilience processes among both cancer patients and cancer partners", is marked with a green checkmark icon, indicating it is a paid article. The second article, "Activity-based communication analysis - focusing on context in communication partner training", is marked with an orange padlock icon, indicating it is an Open Access article. The third article, "The effects of parent-child communication patterns on children's interactive communication in online communities: focusing on social self-efficacy and unwillingness to communicate as mediating factors", is also marked with a green checkmark icon. The search results are ordered by relevance and show 10 results per page.

7. Agar mempermudah, lihat sebelah kiri pada menu **Filters**, berikan **ceklis** (✓) pada **“Only show content I have full access to”** supaya hasil penelusuran hanya menampilkan koleksi yang dilanggan dan bisa diakses secara *full text*. Kita juga bisa mengatur *subject*, *published in* (dimana koleksi diterbitkan), dan *publication date* (rentang waktu terbitan) di menu *Filters*, lalu klik *Search*.
